GET OUT THERE

Now running Android 6.0 with a speedy new processor, the CT7G Rugged Tablet is ready to ramp up your data collection process in tough environments. It has the outdoor visibility you need on a large, 7-inch display, a battery with enough juice to run all day long, and the ruggedness required to perform reliably in any environment.

Not only that, but the CT7G also provides the versatility to choose from thousands of business-ready apps on the Google Play Store. All of this and more, at an affordable price making the CT7G an easy choice. So put down that fragile smartphone, pick up the CT7G, and get out there.

ENHANCED DISPLAY READABILITY

Working in bright sunlight? No problem. Unlike typical smartphones and tablets, the CT7G's large, 7-inch display provides enhanced outdoor readability, so the only thing you'll have to worry about when working under the glaring sun, is getting a sunburn.

LONG-LASTING BATTERY

Featuring more than double the battery life of typical tablets, the CT7G provides a charge that lasts all day, allowing more time to get the job done, and less time re-charging your battery.

HIGHLY VERSATILE ANDROID OS

Running Android 6.0, the CT7G provides a sturdy backbone for a wide array of out-of-the-box applications available on the Google Play Store. This broad selection of business-ready apps brings a huge amount of versatility to your data collection needs.
