### FEATURE-LOADED FOR SUPERIOR PERFORMANCE

The Nautiz X9 is a feature-full rugged handheld with plenty of computing power, a scanner, camera, 4G/LTE phone and NFC, plus all the capabilities that come with the Google GMS license, such as access to Play Store and Google Maps.

This rugged data collector is powered by a quad-core processor and runs Android 7.0 (Nougat). It has plenty of RAM and storage to handle a wide range of field tasks, and it features a sun-light-readable 5-inch capacitive display with multi-touch sensitivity and specially hardened glass.

### RUGGEDNESS FOR EVERY TOUGH ENVIRONMENT

The Nautiz X9 is designed for challenging outdoor and industrial environments. An IP67 rating means it's fully waterproof and completely sealed against dust, and it's also tested against MIL-STD-810G standards for surviving drops, vibrations, humidity, extreme temperatures and altitudes. That means you'll never have to worry about interrupting your work or losing important data.

### FIELD CONNECTIVITY & VERSATILITY

The ultra-rugged Nautiz X9 features 2G/3G/LTE WAN, dual band 802.11 a/b/g/n wireless LAN, low-energy 4.1 BT and NFC — in short, everything you could require for heavy-duty fieldwork. Accessories such as the pistol grip, vehicle dock and desktop charger help outfit your handheld for an efficient day in the field.
